

Look hard and long at a potential web host. Our company is based on three core values. These are so important to us, that we offer a 100% satisfaction guarantee for each:

1. Dependability

We are committed to 99.9% uptime 24 hours a day, 365 days a year. We can not predict the future, but we have taken steps to avoid downtime caused by temporary power outage and network congestion. Our company is dependable.

2. Expertise

Our company has been active on the Internet since 1996. We have specialized in fast web hosting, web authoring and design, ecommerce and multimedia / Real video hosting, and Macromedia Flash projects. Our expertise shows in our portfolio, and in how we relate to customer questions and user support. We have the expertise and experience you need.

3. Accessibility

We are committed to providing live person technical support if needed. Many of our competitors may offer cut rate prices, but in the end quality and accessibility are what suffer. Customers who join Oo2 Network from other servers tell us of unresolved problems with no way to contact someone for help. We consider personalized customer support as being our key advantage. We offer toll free support to a live person in the event of any service or hardware concern.
